Threat Detection Engineer

Splunk SIEM | Threat Detection | Incident Response | SOAR Playbooks

Cybersecurity professional with hands-on expertise in threat detection, incident investigation, and security automation in an operational environment. Strong self-learner with the ability to quickly acquire new technical skills, work under pressure, and deliver accurate results in time-critical situations. Experienced in investigating complex security events, building practical detection logic, and supporting response processes across enterprise systems.

WORK EXPERIENCE

- | | |
|---|---------------------|
| Packing Specialist - MASACH - Modiin, Israel | 2025-Present |
| <ul style="list-style-type: none">• Packaged technology components used as part of motherboard-mounted defense products.• Focused on precision, technical product handling, operational quality, and reliability. | |
| Threat Detection Engineer - Unit Sapir, Israeli Military Intelligence - Israel | 2022-2025 |
| <ul style="list-style-type: none">• Led end-to-end threat detection efforts, from initial research and hypothesis building to deployment of SPL-based detections in production environments.• Designed and refined detection logic for malware and advanced attack techniques, leading to improved signal quality and a measurable reduction in false positives.• Conducted in-depth security investigations using multi-source telemetry, correlating logs and behavioral data to identify root causes and attacker activity.• Took responsibility for incident analysis and escalation, operating under pressure in a mission-critical environment.• Led the implementation of Splunk SOAR use cases, developing and maintaining automated playbooks that improved response speed and analyst efficiency.• Developed Python and PowerShell scripts to analyze large volumes of security data, automate enrichment and support faster IOC identification and attribution. | |

EDUCATION

- | | |
|---|------------------|
| High School Diploma, Computer Science Track - Israel | 2017-2021 |
| <ul style="list-style-type: none">• Studied software development with a focus on C# programming. | |
| CTM Certification Technology Management - NESS Technologies - Israel | 2017-2019 |
| <ul style="list-style-type: none">• Built a project-based technology solution designed to solve a practical product problem.• Studied project development, teamwork, and C# programming. | |

COURSES & TRAINING

- | | |
|---|------------------|
| Investigating Incidents with Splunk SOAR - Splunk - Israel | 2025 |
| <ul style="list-style-type: none">• Studied practical approaches for investigating and resolving complex cybersecurity incidents. | |
| Backend Development - boot.dev - Israel | 2024-2025 |
| <ul style="list-style-type: none">• Completed backend development studies through the boot.dev learning path. | |
| Cybersecurity Analyst Course - IDF BHD 7 - Israel | 2022 |
| <ul style="list-style-type: none">• Studied Python, PowerShell, Bash, network security, domain security, and protocols.• Covered Windows Internals, TCP/IP concepts, and cybersecurity investigation fundamentals. | |

PROFESSIONAL SKILLS

- **Security Tools:** Splunk, Splunk SOAR, OSQuery, BigFix, SCCM, McAfee EPO, SmartConsole
- **Security Domains:** SOC, Blue Team, Incident Investigation, Threat Detection, SIEM
- **Network & Domain Security:** TCP/IP, Network Protocols, Windows Internals, Active Directory
- **Scripting & Programming:** Python, PowerShell, C#, C, Bash, SQL, SPL
- **Operating Systems:** Windows, Linux
